

QUICK-START GUIDE

Get your top 10 jobs in 5 minutes.

Attach your resume, paste the prompt, hit send. That's it.

Connect the Apify connector

- 1 Go to **Settings** → **Connectors** → **Browse**, search **Apify**, click **Connect**. Free account at apify.com is all you need. One-time setup only.

Open a new chat & pick your model

- 2 Click **+ New chat**. Select **Claude Sonnet 4.6** or **Opus 4.7** from the model picker. Confirm Apify is toggled on under the tools icon.

Attach your resume PDF

- 3 Click the **paperclip icon** and select your resume. Keep it in the same message as the prompt — don't send yet.

Paste the prompt from page 2 & send

- 4 Copy the full prompt on the next page, paste it into the same message, and hit send. Wait ~90 seconds while Claude scrapes LinkedIn, Indeed, and Glassdoor.

WHAT YOU GET

A ranked table of 10–15 fresh jobs scored against your resume — plus a colour-coded visual card dashboard — all with clickable apply links. Ready in under 2 minutes.

THE PROMPT — COPY & PASTE INTO CLAUDE

Copy. Paste. Send.

Paste everything below into Claude with your resume attached. Don't change anything on your first run.

▼ COPY FROM HERE

You are my Career Agent.

INPUT: My resume (attached above).

DO THIS:

1. Read my resume – infer target role, skills, experience level, and location.
2. Use the Apify connector to pull live job postings from LinkedIn, Indeed, and Glassdoor posted in the last 48 hours that match my profile.
3. Score each job 0–100 against my resume:
 - Skills match 40%
 - Experience fit 25%
 - Role alignment 20%
 - Location fit 15%

OUTPUT: A ranked table, highest score first:

Rank	Score	Title	Company	Location	Posted	Why it fits	Gaps	Apply Link
------	-------	-------	---------	----------	--------	-------------	------	------------

Then name the top 3 to apply to today and why.

THEN generate a polished HTML job-card dashboard rendered inline. Each card shows: score badge (green 85+, blue 70–84, amber 55–69, gray <55), Top Pick tag on #1–3, source pill, why-it-fits vs gaps, and a clickable apply link.

RULES:

- Never invent jobs. Always cite the source URL.
- Mark missing fields as N/A.
- Do not ask clarifying questions. Just run.
